Sleek Academy is getting ready for their second school year (K-12<sup>th</sup> grade) and we need your help! We have added a Robotics Course, THE FIRST LEGO LEAGUE ROBOTICS PROGRAM!!

The FIRST Lego League robotics program truly embodies what a STEAM education is all about. FIRST Robotics encourages leadership, problem solving, teamwork, programming, and creativity. Children not only get to create and program a robot in order to complete specific tasks, they also work as a team in a true Problem based AND Project based educational program. FIRST Lego League team members fully embrace Core Values such as “gracious professionalism” and “coopertition” while having fun! FIRST Lego League gives children the opportunity to compete at a State and even international level. To Learn more about First Lego League, please visit their website at <http://www.firstlegoleague.org/>

How could you help? We are looking for sponsors! The robotics program requires the purchase of robots, various equipment, travel costs and other fees to complete the four components of the program and to compete. YOU could be a sponsor and have your logo/family name on our Robotic T-shirts!! Any monetary amount of donations is greatly appreciated. Companies that would like to sponsor would get a 100% advertising right off as we will put your logo on our T-shirts and advertise for your company!

Thank you in advance for your support!!
